

# Bardonomics

## Bardonomics Overview:

Bacardo's tokenomics, known as Bardonomics, outlines the strategic allocation and distribution of \$BACARDO tokens within our ecosystem. Here's a concise breakdown:

**Total Supply: 100,000,000,000,000 \$BACARDO tokens**

**No private or presales ensure fair distribution and community inclusivity.**

## Token Allocations:

Total Token Supply	100,000,000,000,000
Liquidity on Decentralized Exchanges	68%
Centralized Exchanges Listing (Community Incentives)	12%
Airdrop to Navigators	2.5%
Marketing, Partnerships, and Promotions	10%
Bacardo Music & Videos	2.5%
Founders/Early Contributors	5%

**Liquidity on DEXs:** Ensures smooth trading and liquidity provision on decentralized exchanges

**Centralized Exchange Listings:** Covers listing fees and supports community engagement events, educational workshops, giveaways, contests, and other community-driven initiatives.

### Airdrop to Early Navigators: Tokens

The Airdrop to Navigators rewards early adopters and crypto enthusiasts who have journeyed with Bacardo since its inception or joined later as crypto adventurers. This initiative acknowledges their significant contributions to our community's growth and development.

**Bacardo Music:** Ensures continuous production of high-quality music and videos content that aligns with the Bacardo brand and vision.

**Marketing, Promotions & Partnerships:** Fuels strategic marketing campaigns and ecosystem growth.

**Founding Fund:** The Founding Fund plays a crucial role in the early development of Bacardo by covering essential expenses. It supports the production of Bacardo's debut album and music

videos, fueling our artistic launch. Additionally, the fund allocates resources for marketing and promotions to enhance visibility and build our community. Finally, a portion of the fund is dedicated to recognizing and rewarding the founders and key contributors who have been instrumental in bringing Bacardo to life.

### **Deflationary & Inflationary Mechanisms**

The \$BACARDO token operates within a capped supply of 100,000,000,000,000 tokens, similar to Bitcoin, ensuring a finite availability. Currently, the token supply does not incorporate deflationary mechanisms.
